Hi Chris,   Attached is my final code used on the presentation: https://github.com/brunomoita/InventoryService   The video content can be found at: https://youtu.be/N80zQQEr--M   I can't work around the database issue regarding inserting the image or doing posts with the image as BASE64 content, other then that I am really happy with the final result. Have a great summer and hope to see you again on the Weather Station Meetings. Please get back to me in case of access issues to the video.
